

循环再利用化学纤维  
Recycled Chemical Fiber

原液着色化学纤维  
Spun-dyed Chemical Fiber

认证产品 Certified Product

原液着色循环再利用涤纶长丝

Spun-dyed Recycled Polyester Filament

## 产品简介 Product introduction

原液着色循环再利用涤纶长丝 Spun-dyed recycled polyester Drawn Textured Yarn

颜色Color：千色库存，可小批量定制Thousands of colors are available and can be customized

规格Specifications： 50D/18F-600D/144F

纤维性能 Performance

产品具有绿色环保、节能减排、色牢度高、可小批量定制的特点

The product has the characteristics of green environmental protection, energy saving and emission reduction, high color fastness and can be customized in small batches.

# 福建省百川资源再生科技股份有限公司

## Fujian Baichuan Resources Recycling Science & Technology Co.Ltd.

### 企业简介 Enterprise brief introduction

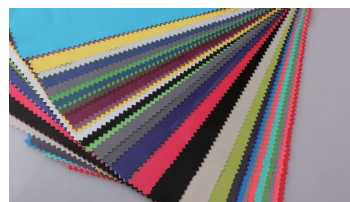

福建省百川资源再生科技股份有限公司（股票代码：835634）是专业从事再生纺织品的生产企业，公司长期致力于废旧资源回收及其循环利用技术的研究和开发，拥有从瓶片清洗、到纺丝，再到织布、拉链的全产业链生产能力（年产5万吨超洁净精细化回收瓶片清洗及智能分选生产线，年产5万吨干式着色法纺丝生产线，年产4000万米再生织布，年产2亿米再生拉链）。

Fujian Baichuan Resources Recycling Technology Co., Ltd. (stock code: 835634) is a manufacturer specializing in the production of recycled textiles. The company has long been committed to the research and development of waste resource recovery and recycling technology. It has everything from bottle flake cleaning to spinning, And then to the production capacity of the entire industrial chain of weaving and zippers (an annual output of 50,000 tons of ultra-clean and refined recycling bottle flake cleaning and intelligent sorting production lines, an annual output of 50,000 tons of dry color spinning production lines, an annual output of 40 million meters recycled fabric, with an annual output of 200 million meters recycled zippers).

### 认证/标准 Standards and Certifications

《再生有色涤纶低弹丝》（FZ/T 54096-2017）

通过Oeko-Tex、ISO 9001、ISO 14001、ISO18001认证、GRS等
